2.6 Cameras are sited to ensure that they cover School premises as far as is possible. Cameras are installed throughout the School's sites including roadways, car parks, buildings (internal and external), within buildings and externally in vulnerable public facing areas.

2.7 Cameras are not sited to focus on private residential areas. Where cameras overlook residential areas, privacy screening or software masking will be utilised.

2.8 The CCTV system is operational and capable of being monitored for 24 hours a day, every day of the year.

2.9 Any CCTV installation shall be subject to a Data Protection Impact Assessment. It will also comply with the policy and procedures within this document. The Data Protection Impact Assessment shall be appended to this policy and shared with Central Office Data Protection Officer.

3. Purposes of the CCTV system

3.1 The principal purposes of the School's CCTV system are as follows:

- for the prevention, reduction, detection and investigation of crime and other incidents;
- to ensure the safety of staff, children, visitors and members of the public
- to assist in the investigation of suspected breaches of school regulations by staff or students, and
- to safeguard pupils in our boarding house.

3.2 The CCTV system will be used to observe the school's buildings and areas under surveillance to identify incidents requiring a response. Any response should be proportionate to the incident being witnessed.

3.3 The school seeks to operate its CCTV system in a manner that is consistent with respect for the individual's privacy as outlined in the Privacy Impact Assessment.

4. Monitoring and Recording

4.1 Cameras are monitored in the Embley server room and in the IT Office by staff only. Images are only reviewed as required when incidents are reported.

4.2 Images are recorded centrally on servers located securely in the Embley server room and are viewable in the IT office by IT staff. Additional staff may be authorised by the Headmaster to monitor cameras on a view only basis to support trained staff i.e. in identifying specific children.

4.3 Trained staff are as follows: IT Team and Data Protection Lead.

4.4 A member of SLT will be involved in reviewing images, other members of staff, such as Head of Year, may also be involved where required.

4.5 A log shall be kept of requests to access recorded images by staff and whether any recorded images have been copied to support specific investigations. Information logged should include: Name of staff, time and date of viewing, time and date of images reviewed, brief reason for viewing content, (e.g. "incident in corridor"), Name of approving member of SLT, whether any images have been copied and where they have been copied to.

4.6 The cameras installed shall provide images that are of suitable quality for the specified purposes for which they are installed, and all cameras are checked regularly to ensure that the images remain fit for purpose and that the date and time stamp recorded on the images is accurate.

4.7 All images recorded by the CCTV System remain the property and copyright of United Learning. The recorded images are stored on site on a server. Downloaded footage used in investigations is securely stored on site on a server, in accordance with the process outlined in the retention of images section.

4.8 Any cameras placed in the front of the classrooms to monitor student behaviour will be carried out in accordance with Part 3 of the Employment Practices Code.
The monitoring of classrooms should be clearly identified in the Privacy Impact Assessment. This should cover:

- identifying clearly the purpose(s) behind the monitoring arrangement and the benefits it is likely to deliver
- identifying any likely adverse impact of the monitoring arrangement
- considering alternatives to monitoring or different ways in which it might be carried out
- taking into account the obligations that arise from monitoring
- judging whether monitoring is justified

4.9 The CCTV system should not be used to carry out lesson observations.

4.10 The use of cameras in areas where one would normally expect a degree of privacy should be clearly identified on the Privacy Impact Assessment. This would include cameras placed in, or looking into, toilet or changing areas. Cameras should only be used in toilet or changing areas where there are full height cubicles, never in areas where it is possible to see people using the toileting facilities (excluding hand washing) or changing.

4.11 Any use of biometric data/technology or surveillance equipment (e.g. CCTV cameras) or patrolling of school buildings or grounds for security purposes does not intrude unreasonably on boarders' privacy. Any schools which use biometric technology and/or CCTV should set out the rationale for its use in the school's security policy. In addition, schools using CCTV must be registered with the Information Commissioner's Office (ICO)1516 and comply with relevant data protection legislation including the UK General Data Protection Regulations, the Data Protection Act 201818 and the Protection of Freedoms Act 201219.

4.12 The use of covert cameras will be restricted to rare occasions, when a series of criminal acts have taken place within a particular area that is not otherwise fitted with CCTV. A request for the use of covert cameras will clearly state the purpose and reasons for use and the authority of both the Headmaster and DSL will be sought before the installation of any covert cameras. The Headmaster should be satisfied and be able to demonstrate that all other physical methods of prevention have been exhausted prior to the use of covert recording.

4.13 Covert recording will only take place if informing the individual(s) concerned would seriously prejudice the reason for making the recording and where there are reasonable grounds to suspect that illegal or unauthorised activity is taking place. All such monitoring will be fully documented and will only take place for a limited and reasonable period.
